Network Specialist | Adjunct Faculty
Cybersecurity & Information Technology Department
St. Philip's College
San Antonio, Texas

May 8th, 2026

To Whom It May Concern,

I am honored to write this letter of recommendation for Kiera Varela in support of her academic and professional pursuits. I have had the opportunity to observe Kiera's growth, discipline, and technical development through her work and involvement within the cybersecurity and information technology environment at St. Philip's College.

Kiera is currently pursuing her Bachelor of Applied Technology, class of Fall 2026 and has consistently demonstrated the qualities necessary to succeed in the cybersecurity field, particularly within Security Operations Center (SOC) and Blue Team environments. She possesses strong technical knowledge in network administration, network analysis, cybersecurity reporting, and security framework implementation, including familiarity with NIST SP 800 standards and best practices.

One of Kiera's strongest qualities is her discipline and determination. She approaches challenges with professionalism, accountability, and a willingness to learn. Whether participating in Capture the Flag (CTF) exercises, analyzing network activity, or collaborating on technical assignments, she consistently performs at a high level and demonstrates critical thinking skills that are essential in modern cybersecurity operations.

Kiera also works exceptionally well with teams and peers. She maintains a positive attitude, communicates effectively, and contributes meaningfully to collaborative environments. Her ability to remain goal driven while supporting those around her makes her an asset in both academic and professional settings.

In addition to her technical capabilities, Kiera demonstrates maturity, integrity, and professionalism beyond expectations. I am confident that she will continue to excel as she advances in her education and career in cybersecurity.

I strongly recommend Kiera Varela without reservation for academic opportunities, internships, leadership programs, and professional positions related to cybersecurity, networking, and information technology.

Please feel free to contact me if additional information is needed.

Sincerely,

Chris Weatherspoon
